

Product Datasheet

Product Name: CORK Supreme Power Padel Racket

Weight: 360-375 gr

Core: 38 mm

Profile: 38 mm

Format: Diamond

Balance High

Exterior Core: Cork / Carbon 24k / Inegra and Carbon / Carbon 3K / Silionne Fiber

Interior Core: Black Eva soft laminated gum

Structure: Double Carbon

Game Level: Advanced/professional

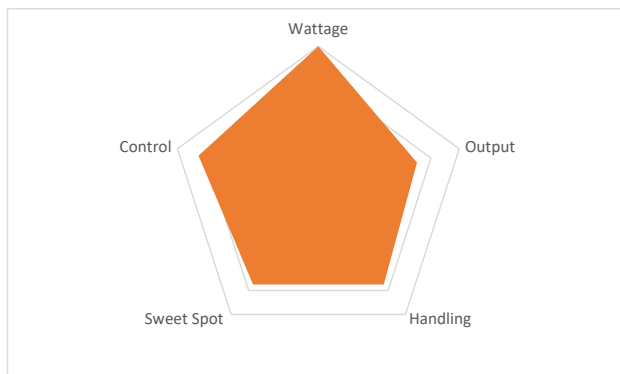

Available Colors: Gold Cork

Cork Surface: Rough

Rigidity: Medium/Hard

Product description:

The Supreme Power racket with a diamond shape has a high balance and is suitable for offensive players who privilege power in their game. Of all Cork Padel rackets, due to its shape, is the most demanding racket indicated for technically more advanced players. Using the new, exclusive, and unprecedented drilling asymmetrical pattern, it was designed to optimize an ample sweet spot, with a drilling diameter for each specific area of the racket. The gum at the center of the racket has a unique and innovative technology, a semi-perforation cross. This semi-drilling in the center translates into a controlled outlet with a wide and controlled sweet spot, removing the trampoline effect when defending and giving greater power when a offensive play is in order. Topped-off with CORK PADEL's exclusive patented and exclusive anti-vibration system.
